

**XVI International Symposium**  
**„Advances in the Chemistry of Heteroorganic Compounds”**  
**Łódź, November 15, 2013**

- 9:15 – 9:30**      **OPENING**
- SESSION I** – Chairman **Marian Mikołajczyk**
- 9:30 - 10:15**    **W-1**      **Janusz Rachoń (Gdański, Poland)**  
Dithiophosphoric acid and its selenium analogues in  
the synthesis of sulfur and selenium compounds.
- 10:15 – 11:00**    **W-2**      **Hans-Urlich Reissig (Berlin, Germany)**  
SYNTHESIS OF HETEROCYCLES WITH  
ALKOXYALLENES
- 11:00 – 11:30**                      **COFFEE BREAK**
- SESSION II** – Chairman **Henryk Krawczyk**
- 11:30 - 12:15**    **W-3**      **Toshiaki Murai (Gifu, Japan)**  
Optically Active Phosphoroselenic Acid  
Derivatives Bearing a 1,1'-Bi-2-naphthyl Group as  
New Chiral Molecular Tools.
- 12:15 - 13:00**    **W-4**      **Christian V. Stevens (Ghent, Belgium)**  
Exploiting Continuous Flow Opportunities  
for Scale-up
- 13:00 - 14:00**    **LUNCH**
- 14:00 - 15:00**    **POSTER SESSION**
- SESSION III** – Chairman **Grzegorz Mlostoń**
- 15:00 - 15:45**    **W-5**      **Christian Müller (Berlin, Germany)**  
Recent Developments in the Chemistry of Low-  
Coordinate Phosphorus Heterocycles
- 15:45 - 16:30**    **W-6**      **Valerij A. Nikolaev (St. Petersburg, Russia)**  
FLUORINATED DIAZODIKETONES –  
UNEXPLORED AREA IN THE CHEMISTRY OF  
ALIPHATIC DIAZO COMPOUNDS
- 16:30 - 16:45**                      **CLOSING**
